Forward Looking Statements

This investor presentation contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 regarding Delmar Bancorp’s (“Delmar” or “DBCP”) and Virginia Partners Bank’s (“PTRS”) expectations or predictions of future financial or business performance or conditions. These forward-looking statements are based on the current beliefs and expectations of the management of DBCP or PTRS and are inherently subject to significant business, economic, and competitive uncertainties and contingencies, many of which are beyond their control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. Forward-looking statements may be identified by words such as “may,” “could,” “will,” “expect,” “believe,” “anticipate,” “forecast,” “intend,” “plan,” “prospects,” “estimate,” “potential,” or by variations of such words or by similar expressions. Forward-looking statements in this report (including in the exhibits hereto) may include, but are not limited to, statements about projected impacts of and financial results generated by the transaction. Forward-looking statements speak only as of the date they are made and DBCP and PTRS assume no duty to update forward-looking statements, except as required by law.

In addition to factors previously disclosed in DBCP’s and PTRS’ reports filed with the SEC and those identified elsewhere in this report, the following factors, among others, could cause actual results to differ materially from the results expressed in or implied by forward-looking statements and historical performance: ability to obtain regulatory approvals and meet other closing conditions to the transaction; delays in closing the transaction; changes in asset quality and credit risk; changes in interest rates and capital markets; the introduction, timing and success of business initiatives; competitive conditions; and the inability to recognize cost savings or revenues or to implement integration plans associated with the transaction. Annualized, pro forma, projected, and estimated numbers are used for illustrative purposes only, may not reflect actual results and may not be relied upon.

Transaction Overview

Transaction Rationale

Strategic Rationale

- Creates a \$1.2 billion asset bank in the Mid-Atlantic and the Southeast
- Serving markets extending from Philadelphia, PA to Salisbury, MD and Fredericksburg and Newport News, VA
- Increased market presence through combination of complementary franchises
- Strong credit quality
- Immediate increase to pro forma Company's legal lending limit

Financially Attractive

- Accretive to both DBCP and PTRS earnings per share in first full year (excluding transaction costs)
- Accretive to both DBCP and PTRS tangible book value per share in less than 3 years
- Operating synergies anticipated to result in readily achievable cost savings
- Pro forma company will be well-capitalized

Well – Positioned Pro Forma Franchise

- Retaining leadership from both banks will help facilitate a successful integration process and consistent service in their home markets
- Significantly increases future growth opportunities, both organic and acquisitive
- Additional size and earnings has potential to create shareholder value through stronger pricing metrics from both a trading and control perspective
